This week you are going to be choosing a scene for your game.

In Purple Mash, Search for 'Setting the Scene'

How To videos:

Watch this video then use 2DIY3D to create a background and setting.

Don't hand it in as you will be adding to it each week and developing your game. I will be able to see how you are getting on each time you add to the game.

Art

On paper using any medium you like, draw something from nature that you have found in your garden or outside. Pick something small and focus on the detail to draw it big on the page. It is important to have the object you are drawing in front of you. Take your time and draft it first.

To help you see how to improve your art from one draft to the next watch this video on feedback:
